TITLE : DISH WASHER

ABSTRACT : PROBLEM TO BE SOLVED: To provide a dish washer which allows dishes to be set easily in a washing chamber and has a high washing efficiency.

SOLUTION: A mesh-like flat first dish basket 11 is set in a washing chamber 4 and then a second dish basket 12 provided with a handle 14 is set on the first one. The second dish basket 12 is portable with the handle 14. It is carried onto a dining table and, after setting dishes in it, it is carried to the dish washer 2 to be set on the first dish basket 11 to wash and dry the dishes. After the washing and drying operations, the second dish basket 12 is taken out with the handle 14 from the washing chamber 4 to be carried to a cupboard or the dining table. A small articles container 17 is set aslant against a jet nozzle 7 and so it is easily exposed to washing water 7c, increasing the washing efficiency.
